Ashland Inc. Revises First Quarter Earnings

COVINGTON, Ky., Jan 28, 2005 /PRNewswire-FirstCall via COMTEX/ -- Ashland Inc. (NYSE: ASH) announced today that it has made a revision to its first quarter fiscal 2005 results issued on January 25, 2005. As a result, net income was reduced to \$94 million, or \$1.28 a share, for the December 2004 quarter rather than the previously reported \$101 million, or \$1.39 a share. Operating income was reduced to \$180 million from \$193 million. There is no cash flow impact from this correction of past accounting treatment.

Subsequent to Ashland's earnings release on January 25, 2005, Ashland was informed by its independent public accounting firm that the major public accounting firms had re-evaluated the appropriateness of historical accounting practices within the industry for certain insurance policies issued through an energy industry mutual insurance consortium. After completing its own review and discussions with its independent accountants, Ashland has concluded, based on this re-evaluation, that accounting standards require a shareholder of a mutual insurance company to record a liability for the estimated effect of past losses of the shareholder group on the individual shareholder's future insurance premiums. As a result, Ashland recorded a liability of approximately \$7 million for the estimated effect on its future premiums, which increased the operating loss from corporate activities to \$27 million, compared to the previously reported \$20 million.

In addition, Marathon Ashland Petroleum LLC (MAP) recorded a liability of \$15 million for the estimated effect on its future premiums, which was included in the earnings Marathon Oil Corporation reported on January 27, 2005. Ashland's 38-percent share of that liability reduced Ashland's equity income from MAP by approximately \$6 million. This reduction decreased Ashland's Refining and Marketing operating income to \$136 million, compared to the previously reported \$142 million.

Ashland has not yet filed its quarterly report on Form 10-Q for the quarter ended December 31, 2004. Ashland's financial statements in the 10-Q will reflect the revised accounting treatment. No restatement of prior periods was required as the impact on such periods would not have been material. Attached are revised unaudited financial statements.
