Ashland introduces Gafchromic™ LD-V1 film with improved contrast and imaging detail

WILMINGTON, Del., June 1, 2022 – Ashland is introducing Gafchromic™ LD-V1 film, the newest addition to its diagnostic film portfolio.

Gafchromic™ LD-V1 film now includes improved contrast and imaging detail. This sensitive dose range delivers instant calibration results that are easy to read with data that is even easier to understand.

“Ashland is continuously looking to provide our customers with value-added solutions,” said Sonya Chopra, strategic account manager, diagnostic films, Ashland. “The launch of Gafchromic™ LD-V1 film is designed specifically as a QA tool for radiology in a processor-less environment.”

Gafchromic™ LD-V1 film is available in two sizes 10” x 12” and 8” x 10” and 10 sheets are included per package. Sheets can be cut into various sizes and they can be handled in room light.

To learn about Ashland’s new convenient, accurate and cost-effective tools for radiology and diagnostic applications visit www.ashland.com/gafchromicldv1 or contact an Ashland solver today.
