## Ashland Inc. Reports Preliminary Results for September Quarter and Fiscal 2005

COVINGTON, Ky., Oct. 24 /PRNewswire-FirstCall/ -- Ashland Inc. (NYSE: ASH) today announced preliminary\* results for the fiscal fourth quarter ended Sept. 30, 2005. Net income was \$93 million, or \$1.24 per share. As compared with the 2004 fourth quarter:

- \* Total Chemical Sector operating income reached \$78 million for the quarter, up slightly
  - -- Ashland Distribution operating income increased to a record \$28 million, up 22 percent
  - -- Ashland Specialty Chemical operating income grew to a record \$29 million, up 21 percent
  - -- Valvoline recorded operating income of \$21 million for the quarter, down 30 percent
- \* Transportation Construction Sector recorded operating income of \$43 million, down 39 percent

"Safe Harbor" Statement under the Private Securities Litigation Reform Act of 1995: Statements in this press release regarding Ashland's business which are not historical facts are "forward-looking statements" that involve risks and uncertainties. For a discussion of such risks and uncertainties, which could cause actual results to differ from those contained in the forward-looking statements, see "Risk Factors" in the Company's Annual Report or Form 10-K for the most recently ended fiscal year.

Net income for Ashland's fiscal fourth quarter, ended Sept. 30, 2005, amounted to \$93 million as compared with \$200 million in the prior-year quarter. Earnings per share amounted to \$1.24 in the 2005 quarter versus \$2.76 per share in the September 2004 quarter. The prior-year quarter included operating income of \$146 million from Ashland's 38-percent interest in Marathon Ashland Petroleum LLC, our maleic anhydride business and 60 Valvoline Instant Oil Change units that were transferred to Marathon Oil Corp. in the June 2005 quarter (collectively referred to as the "MAP Transaction"). The September 2005 quarter benefited from a \$33 million decline in net interest and other financial costs, resulting from the retirement of debt and other financings and the investment of the remaining proceeds from the MAP Transaction.

During the September 2005 quarter, Ashland recorded a pretax charge of \$13 million for the estimated impact of hurricanes Katrina and Rita on future insurance premiums due Oil Insurance Limited (OIL), the energy-industry mutual insurance consortium in which Ashland participates. These estimates may change as additional information becomes available. Ashland has given notice to OIL that it will terminate its participation effective December 31, 2005. Also during the quarter, Ashland recorded \$39 million in tax benefits unrelated to current-period operations. These benefits resulted primarily from a favorable settlement with the Internal Revenue Service for the 1996 - 1998 audit period and the reevaluation of income tax reserves related to other years. Operating income from ongoing businesses was \$66 million in the September 2005 quarter as compared with \$122 million in the same quarter of 2004.

For its fiscal year ended Sept. 30, 2005, Ashland recorded net income of \$2.0 billion versus \$378 million in fiscal 2004. The results for fiscal 2005 included a gain of \$1.3 billion on the MAP Transaction and a loss of \$145 million on the early retirement of debt. Operating income from ongoing businesses was \$218 million in fiscal 2005 as compared with \$256 million in fiscal 2004.

A detailed analysis of Ashland's earnings for fiscal 2005 appears on page 5 of the attached financial statements.

"Fiscal 2005 was an extraordinary year with our exit from the petroleum refining and marketing industry," said James J. O'Brien, Ashland chairman and chief executive officer. "The quarter, however, was challenging. Disruptions caused by hurricanes and escalating energy prices put pressure on operations in our two industry sectors, Chemical and Transportation Construction, and our results were mixed. As expected, results from our Valvoline and APAC businesses declined. I am encouraged,

however, by the continued strong performances of our Specialty Chemical and Distribution businesses. We believe they are positioned to steer through changing economic conditions better than chemical industry norms."

For the fourth quarter, in the Chemical Sector, record performances by the Ashland Distribution and Ashland Specialty Chemical divisions were offset by weak results from Valvoline. As a result, operating income for the Chemical Sector amounted to \$78 million, a slight improvement over the \$77 million of operating income in the September 2004 quarter.

Ashland Specialty Chemical reported record operating income for the September 2005 quarter of \$29 million, up 21 percent over a record fourth quarter established last year. Sales and operating revenues grew to \$446 million for the quarter, a 21-percent increase over the fourth quarter last year. Revenue growth was driven by higher selling prices, as well as the contribution of sales from the DERAKANE® resins business acquired in December 2004. The increase in operating income reflected a combination of revenue and margin growth.

Ashland Distribution earned \$28 million of operating income in the September 2005 quarter -- its seventh consecutive record quarter. Operating income increased by 22 percent compared with the previous quarter a year ago. Sales and operating revenues increased 11 percent versus the year-ago quarter to \$972 million. The division has maintained operating margins by passing through rising raw material costs and by aggressively managing expenses. Volume declined by 3 percent compared to the prior-year quarter, primarily reflecting the disposition of the ingestible ingredients business (2 percent).

Valvoline's operating income for the September 2005 quarter was \$21 million, down 30 percent from the September quarter a year ago, primarily due to the combination of a 13-percent decrease in lubricant sales volumes, including a 17-percent decline in North American branded volume, and higher raw material costs. Sales and operating revenues were \$339 million for the quarter, 4 percent below the September 2004 quarter. Valvoline International reported a record quarter, mostly due to better earnings from operations in Europe and Latin America.

The Transportation Construction Sector, commercially known as Ashland Paving And Construction, Inc. (APAC), reported operating income of \$43 million for the September 2005 quarter, compared to \$70 million in the 2004 quarter. Results for the September 2005 quarter reflect work disruptions and rapid increases in raw material and energy costs due to the active hurricane and tropical storm season in the quarter. These increases in raw material and energy costs resulted in additional loss provisions for certain construction jobs awarded in prior periods. In total, the provision for job loss reserves was \$6.4 million higher than that recorded in the September 2004 quarter. At Sept. 30, APAC's construction backlog, which consists of work awarded and funded but not yet performed, was \$2.0 billion, up 17 percent from the same period last year.

Today at 5 p.m. (EDT), Ashland will provide a live webcast of its quarterly presentation to securities analysts. The webcast will be accessible through Ashland's website, www.ashland.com. Following the live event, an archived version of the webcast will be available for 12 months at www.ashland.com/investors.

Forward-Looking Statements
```

This news release contains forward-looking statements, within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934, with respect to Ashland's operating performance. These estimates are based upon a number of assumptions, including those mentioned within this news release. Such estimates are also based upon internal forecasts and analyses of current and future market conditions and trends, management plans and strategies, weather, operating efficiencies and economic conditions, such as prices, supply and demand, cost of raw materials, and legal proceedings and claims (including environmental and asbestos matters). Although Ashland believes its expectations are based on reasonable assumptions, it cannot assure the expectations reflected herein will be achieved. This forward-looking information may prove to be inaccurate and actual results may differ significantly from those anticipated if one or more of the underlying assumptions or expectations proves to be inaccurate or is unrealized or if other unexpected conditions or events occur. Other factors and risks affecting Ashland are contained in Ashland's Form 10-K, as amended, for the fiscal year ended Sept. 30, 2004. Ashland undertakes no obligation to subsequently update or revise the forward-looking statements made in this news release to reflect events or circumstances after the date of this release.
